ODP 4401-77
30 December 1977

MEMORANDUM FOR: Acting Deputy Director for Administration.

FROM : [REDACTED]
Acting Director of Data Processing

SUBJECT : ODP Report for Week Ending 30 December 1977

New [REDACTED] Computer Being Tested

[REDACTED] engineers completed installation of the new [REDACTED] computer, model 470/V6, in the Ruffing Computer Center and turned the computer over to CIA for testing at 1414 hours, 27 December 1977. ODP is testing the [REDACTED] system by running a set of typical jobs through the system as a benchmark.

Transfer of ODP Computer Equipment

ODP sent a memorandum to Office of Weapons Intelligence regarding the availability of some computer equipment that could be used by [REDACTED] an OWI contractor, in support of Project [REDACTED]. One Calcomp controller and eight Calcomp disk drives are scheduled to be available in July 1978, while one IBM 360/65 mainframe computer (the current 360/65-1) is scheduled to be available in October 1978. This equipment should be excess to ODP needs, providing ODP's procurements progress as planned.

Project CRAFT

A copy of Mr. Wells' paper to the DCI concerning Project CRAFT was sent by the A/DDCI through the DDA to ODP for comment. This paper was reviewed and comments forwarded to the DDA on 30 December 1977.
